Distribution Channel Gap

Many digital products in Bangladesh face limited reach, with nearly **50+ startups and businesses** failing in their first year due to no distribution channel.

Source: Lightcastle Partners

Limited Access to Market

20% of new businesses fail during the first two years of operation due to failing to access new markets for growth.

Source: Lightcastle Partners

Limited Market Visibility

Despite pouring **2 Billion+ BDT into online distribution**, businesses are not getting satisfactory ROI and **14% of businesses fail** because they do not market their products or services effectively.

Source: Daily Star

The Solution

Bridging the Gap: Aiming to connect **3,000+ digital businesses with 170+ million emerging consumers*** via a robust nationwide distribution network.

Increase Sales

inkam's digital distribution network with **19,000+ agents** covers **99% of Bangladesh**, enabling businesses to reach more customers and boost sales.

Save Money

inkam's **robust technology** and **cost-effective** solutions help businesses save money and overcome the hurdles of digital product distribution.

Increase Leads

inkam uses **data-driven intelligence** to optimize lead generation, giving businesses useful insights to achieve their marketing goals.

Maximize Efficiency

inkam's **seamless integration** and **fast delivery** enhance efficiency, simplifying the process of selling, referring, and channeling digital products.

** In Bangladesh, 66.94 million users are online, yet a notable opportunity exists in reaching the 105 million still offline - DataReportal - Digital 2023: Bangladesh.

The Solution
